Section 1 ADMINISTRATION

Explanatory Note

Section 1 identifies the administrative controls and requirements of the By-law. It names the By-law, states its relationship with other by-laws, defines the area to which it applies, how it is to be enforced, etc. In essence, it identifies the legal parameters within which the By-law functions.

1.1 Title

This By-law shall be known as the Zoning By-law or By-law No. 1996-635 of the Corporation of the Village of Casselman. The Zoning Map hereunto annexed as Schedule "A" is declared to be part of the by-law.

1.2 Defined Area

The provisions of this By-law shall apply to all lands within the municipal boundaries of the Corporation of the Village of Casselman.

1.3 Effective Date

Subject to the provisions of the Planning Act, this By-law shall come into full force and effect as of the date of passing hereof by Council.

1.4 Applications and Plans

In addition to the requirements of any Building By-law, every application for a building permit shall be accompanied by a plan, drawn to scale and showing the following:

- (a) the true dimensions and/or legal description of the lot to be built upon or otherwise used;**
- (b) the proposed location, height and dimensions of any building, structure or use proposed for such lot;**
- (c) the proposed location, height and dimensions of yards, landscaping, parking areas and loading spaces required by this By-law;**
- (d) the location of all existing buildings or structures on the lot, including the lot area, lot coverage of existing and proposed structures;**
- (e) a statement, signed by the owner disclosing the exact use of all existing and proposed uses of land, buildings or structures and such other**

information as may be required to determine whether the uses conform with the requirements of this by-law;

- (f) any information as may be required under the Planning Act or regulation thereto.

1.5 Request for Amendment

Every request for an amendment to this Zoning By-law shall be accompanied by two (2) completed copies of the Corporation's "Application for Amendment to Zoning By-law" and/or the Planning Act or as many copies as may be required.

1.6 Enforcement

This By-law shall be administered by the "Zoning Administrator" or such other person as may from time to time be designated by Council, and no permit for the use of land or for the erection or use of any building or structure or approval of application for any municipal license within the jurisdiction of the Council shall be issued or given where the proposed building, structure or use would be a violation of any provision of this By-law.

1.7 Inspection of Land, Buildings and Structures

- (a) Subject to Section 49 of the Planning Act, R.S.O., 1990, the "Zoning Administrator" or any other officer or any person acting under his or her instructions, and upon producing proper identification, is hereby authorized to enter, at all reasonable times, upon any property or premises for the purpose of carrying out his duties under this By-law.
- (b) Despite any provisions of Section 1.7 (a) hereof to the contrary, no officer or employee of the Corporation shall enter any room or place actually being used as a dwelling unit without obtaining the consent of the occupier, first having informed the occupier that the right of entry may be refused, except under the authority of a search warrant issued under Section 142 of the Provincial Offences Act, R.S.O. 1990.

1.8 Penalty

- (a) Every person who violates any of the provisions of this By-law is guilty of an offense and upon conviction thereof shall forfeit and pay a penalty not exceeding Twenty Five Thousand Dollars (\$25,000.00), on a first conviction, and Ten Thousand Dollars (\$10,000.00) on a subsequent conviction for each day or part thereof upon which the contravention has continued after the day of the first conviction.
- (b) Where a corporation other than the Village of Casselman is convicted under subsection (a), the maximum penalty that may be imposed is Fifty Thousand Dollars (\$50,000.00) on a first conviction and Twenty Five Thousand Dollars (\$25,000.00) on a subsequent conviction for each day or part thereof upon which the contravention has continued after the day of the first conviction.

- (c) In the case where any building or structure is erected or altered, or any part thereof is used, or any lot is used, in contravention of any of the requirements of this By-law, such contravention may be restrained by action at the instance of any ratepayer or of the Corporation pursuant to the provisions of the Municipal Act or the Planning Act in that behalf.

1.9 Repeal and Relationship to Former By-laws

Insofar as it applies to the lands affected by this By-law, any By-laws passed under Section 34 of the Planning Act, R.S.O., 1990, or its predecessor, are hereby repealed.

The adoption of this By-law shall not prevent any pending or future prosecution of, or action to abate any existing violation of the said By-laws if the violation is also a violation of any of the provisions of this By-law.

1.10 Validity

Should any Section or part of a Section of this By-law or Schedule hereto be declared by a court of competent jurisdiction to be invalid, the same shall not affect the provisions of this By-law as a whole or any part thereof other than the part declared to be invalid.

1.11 Other By-laws, Licenses, Permits and Regulations

Nothing in this By-law shall exempt any person from complying with the requirements of any other By-law in force within the area affected by this By-law, or from applying for and obtaining any permit, license, permission, authority or approval required by this or any other By-law or regulation of the Corporation or by any other law or governmental authority as may from time-to-time be required.

1.12 Certificate of Occupancy

No change shall be made in the type of any use of any land, building or structure within any zone, without first obtaining a Certificate of Occupancy from the Municipality.

1.13 Conflict

In the event of conflict between this By-law and amendments thereto, and any general or special By-law, the most restrictive or most applicable By-law shall prevail.

Section 2 CONFORMITY REQUIREMENTS

Explanatory Note

This short section establishes the authority and legitimacy of the By-law. It is composed of two statements which establish the primacy of the regulations stated within.

- 2.1 No land, building or structure shall be used and no building or structure shall be erected or enlarged or placed for any purpose within the area defined by this By-law, except as specifically, or by necessary implication, authorized by this By-law and in conformity with all the applicable provisions of this By-law.**

- 2.2 Subject to the granting of such minor variances as may be necessary, no lands shall be severed from any existing lot if the effect of such action is to cause the original, adjoining, remaining or new building, structure, lot or use of land to be in contravention of any provision of this By-law.**

Section 3 DEFINITIONS

Explanatory Note

For the purpose of this By-law, the definitions and interpretations given in this Section shall govern. Section 4 GENERAL PROVISIONS

Explanatory Note

The General Provisions section of the By-law states the regulations which apply regardless of the specific zoning (Sections 6-11). Whereas the zones provide site specific controls corresponding to such items as permitted uses and locational restrictions, the General Provisions provide regulations more general in nature, applying to a variety of uses regardless of zoning.

4.1 Accessory Buildings, Structures and Uses

4.1.1 Accessory uses, buildings or structures shall be permitted in all zones in accordance with the relevant provisions of this By-law and the following:

- (a) In a Residential Zone or on a lot having an accessory dwelling use in another zone, the following provisions shall apply for buildings or structures which are accessory to the residential use:**
 - (i) No accessory use shall be erected closer to the front lot line or the exterior side lot line than the minimum front yard and exterior side yard setbacks required for the main building.**
 - (ii) Accessory buildings or structures shall not be located closer than 1.0 m (3.4 ft.) to any interior side or rear lot line and shall not exceed 5.0 m (16.5 ft.) in height.**
 - (iii) Accessory buildings or structures shall not occupy more than 10% of the total lot area. Such accessory buildings or structures shall be included as part of the total lot coverage calculation as established in the zone requirements.**
 - (iv) Common semi-detached garages or carports may be centered on the mutual side lot line.**
 - (v) Where a lot line abuts a lane, an accessory garage shall not be constructed closer than 0.6 m (1.9 ft.) to the said lane.**
 - (vi) Accessory dwelling units shall conform to the setback requirements of the main building.**
- (b) In all other zones, accessory buildings and structures shall conform to the requirements of the particular zone except for an accessory dwelling as set out in Section 4.1.1(a) above.**

- (c) All accessory uses, buildings and structures to a permitted principle use shall be located on the same lot and in the same zone as the principle use.
- (d) Any building or structure which is attached to the main building will not be considered accessory for the purpose of this By-law.
- (e) The use of any accessory building for human habitation is not permitted except where a dwelling is specifically listed as a permitted use.
- (f) The use of an accessory building or structure for the keeping of animals, other than domestic pets, is not permitted in any residential zone.

4.1.2 Private swimming pools, both above-ground and in-ground both open and covered, shall be permitted subject to the following requirements:

(a) Open Pools

- i) An in-ground open pool area shall be totally enclosed by a non-climbable fence constructed of suitable materials, having a minimum height of 1.21 metres (4.0 ft.) with a gate which is locked when the pool is not in use.
- ii) The maximum height of an above-ground pool including a fence shall not be more than 3.0 m (10.0 ft.) above grade. An above ground pool shall be enclosed by a fence which may be constructed as part of the pool structure such that the pool is inaccessible when not in use.
- iii) Any building or structure required for changing clothing or pumping, filtering or storage or any similar purposes shall comply with the provisions respecting accessory uses and structures.
- iv) No part of an Open Pool including an associated apron or platform which is in a front or side yard shall be constructed closer to a street line than the requirements for a main building in the zone within which it is located nor closer to the lot line in a rear yard or interior side yard than the minimum distance required for an accessory use or structure.

(b) Covered Pools

Detached covered pools shall conform with the accessory building requirements contained in subsection 4.1.

4.2 Automotive Service Station, Gas Bar, Car Washing Establishment

Despite any other provisions contained in this By-law, for all zones within which an automotive service station, gasoline bar, and/or car washing establishment is permitted the following shall apply:

(a) Gasoline Pump Island Location

The minimum distance between the gasoline pump island, pumps and their related overhead canopies and any pump from any street line shall be 6.0 m (19.6 ft) from any lot line.

(b) Separation of Propane Tanks

No person shall erect or use a tank for the storage of propane for sale at an automotive service station or gas bar or on any other property where vehicle fuel may be dispensed unless a license has been obtained from the Ministry of Consumer and Commercial Relations and the location is in compliance with the requirements under the Ontario Propane Code.

(c) The width of any entrance or exit combined entrance or exit measured at the front lot line or exterior side lot line shall not be greater than 9 m (29.5 ft) and there shall not be more than 2 accesses from any one street which adjoins the lot.

(d) The minimum distance of any access from a street intersection shall be 12 m (39.4 ft) and the minimum distance between accesses shall be 9 m (29.5 ft).

(e) Where a car washing establishment abuts a residential zone, the following requirements will apply:

i) Despite any other requirements of this By-law for a lot abutting lands zoned for residential use, a car washing establishment shall not be permitted on any lot having a lot area of less than 3,000 square metres (32,292 ft.²) and shall be located on such lot no closer than 20.0 metres (65.6 ft.) to any lot line abutting such residential zone.

ii) No washing or drying operations will be permitted except within the building designed for the purpose of the car washing establishment.

iii) The building shall be so designed that vehicles will egress from the building after washing and drying operations by means of a door located in the wall of the building which is furthest removed from the lot line(s) which abut lands which are zoned for a residential use.

4.3 Basement or Cellar

No basement or cellar or part thereof of any building shall be used as a dwelling unit except as might otherwise be permitted under the Building Code Act, 1990 and the Planning Act with respect to a second residential unit.

4.4 Buildings to be Moved

No building or structure shall be moved within the limits of the Village or shall be moved from outside the Village into the Village unless the building or structure is a permitted use and satisfies all the requirements of the zone in which it is to be located and then only after a permit has been obtained from the Chief Building Official.

4.5 Change of Use

A use of lot, building or structure which, under the provisions hereof is not permissible within the zone in which such lot, building or structure is located, shall not be changed except to a use which is permissible within such zone and shall require an occupancy permit under the Planning Act authorizing such change of use.

4.6 Cumulative Standards (Multiple Uses)

Where any land or building is used for more than one purpose, all provisions of this By-law relating to each use shall be satisfied. Where there is conflict such as in the case of lot size or lot frontage, the more restrictive or stringent standards will apply.

4.7 Day Nursery

A day nursery (licensed or private home) is a permitted use in any Residential or Commercial Zone.

4.8 Established Building Line in Built-up Area

Despite any other provision of this By-law, in any Residential Zone or in the General Commercial Zone, the front yard setback for the main building to be constructed between existing buildings or adjacent to existing buildings may be reduced or increased provided that the setback does not vary by more than 10% from the average setback of the adjacent buildings. This provision shall only apply where three or more adjacent lots have been built upon within a 150 m (492.1 ft.) strip on the side of the street of the building to be erected.

4.9 Frontage on a Public Street

- a) No building or structure shall be erected in any zone for any purpose other than a non-residential building or structure accessory to a permitted farm or conservation use unless the lot on which such building or structure is located has frontage on a public street. This provision shall not apply to a lot on a registered plan of subdivision where an agreement between the owner and the Corporation, which includes provisions for the construction of the streets in the subdivision, is registered in the Registry Office or Land Titles Office and where the owner is in full compliance with the agreement.
- b) In addition to all the municipal requirements, all development adjacent to Provincial Highways is also subject to the requirements and permits of the Ministry of Transportation and/or the requirements of the United Counties of Prescott and Russell and more particularly that the setback from the centreline of County Road No. 3 north of the South Nation River shall be 30 m (100 ft.).

4.10 Garden Suites

- a) Subject to the passing of Site Specific Temporary Use By-law under Section 38 of the Planning Act, a Garden Suite shall be permitted as a separate dwelling unit in a residential zone where prescribed provided that the minimum lot area is 465 m² (5,005.3 ft²) in area, that the maximum height of the Garden Suite is 6 m (19.7 ft.), that the Garden Suite is located in a rear or interior side yard which meets the requirements set out for a rear yard, that the minimum setback from any adjacent lot line is 3.0 m (9.8 ft.) and provided that the maximum lot coverage does not exceed the requirements within the Zone.

4.11 Illumination

Illumination of buildings and grounds shall be permitted provided that:

- (a) Illumination shall not cause direct or indirect glare on a street that may interfere with traffic or pedestrian safety.
- (b) Illumination shall not consist of a colour or be so designed or located that it may be confused with traffic signals.
- (c) Illumination shall not cause direct or indirect glare on land or buildings in a residential zone.

4.12 Land Suitability For Use

Despite any other provision of this By-law, no habitable building or structure shall be erected, altered or used on land which, by reason of its rocky, low lying, marshy, or unstable character is unsuitable for the provision of satisfactory water supply, sewage disposal or drainage facilities.

4.13 Landscaping and Screening Provisions

4.13.1 Planting Strip Location and Purpose

A planting strip shall be erected along all property lines separating any property in a Residential R1, R2, R3 or ER zone from any adjacent or abutting property in a commercial GC, HC or LC zone or a Mixed Use Industrial M zone or an Institutional I zone or any special exception Commercial, Industrial or Institutional zones so as to protect such residential uses from unreasonable disturbance by movement of people or vehicles, from lights, noise or exposure to views not compatible with these residential areas.

4.13.2 Contents and Maintenance of Planting Strip/Landscaping Area

- a) Where in this By-law a planting strip is required to be provided and maintained, such planting strip shall consist of a row of trees or a continuous unpierced hedgerow of evergreens or shrubs, not less than 1.5 m (4.92 ft.) high and 1.0 m (3.2 ft.) in width at planting, immediately adjacent to the lot line or portion thereof along which such planting strip is required

hereunder. The remainder of the strip shall be used for no other purpose than the planting of shrubs, flower beds, grass or a combination thereof.

- b) Selection of plant varieties shall be based on regional climatic conditions, constraints of location, effectiveness in screening adjacent properties, resistance to disease and insect attack, cleanliness and ease of maintenance. Planting materials shall be installed using acceptable horticultural practices and planting materials shall consist of healthy nursery stock.
- c) All required plant materials shall be maintained in a healthy condition and whenever necessary replaced with new plant materials to ensure continued compliance with landscaping requirements. All required fences and walls shall be permanently maintained in good repair and presentable appearance and whenever necessary they shall be repaired or replaced.

4.13.3 Height of the Planting Strip

The required height of the buffer strip shall be measured in relation to the elevation of the edge of the adjacent area to be screened. In such cases where the ground elevation of the location at which the screen is to be planted is less than the elevation of the edge of the adjacent area, the required height of the screen shall be increased in an amount equal to the difference in elevation. In the event that the ground elevation of the location at which the screen is to be planted is greater than that at the edge of the adjacent area, the minimum height of the screen shall prevail.

4.13.4 Interruption of Planting Strip for Driveways or Pedestrian Walks

In all cases where ingress and egress driveways or walks extend through a planting strip, it shall be permissible to interrupt the strip within 3.0 m (9.8 ft.) of the edge of such driveway or within 1.5 m (4.92 ft.) of the edge of the walk.

4.13.5 Merchandise in Landscaped Areas

No commodity, merchandise, stock-in-trade or other article of trade or commerce shall be placed, maintained or suffered to remain at any place within the area so required to be landscaped or occupied by a planting strip.

4.13.6 Use of Fence Instead of Planting Strip

In required planting strip areas where a natural planting strip is considered to be impractical or inappropriate, an opaque fence may be substituted in whole or in part for a planting strip provided its specifications are approved by the Chief Building Official.

4.13.7 Exclusions for Existing Situations

The provisions of Section 4.13 shall not apply to properties zoned as exceptions in this By-law except to maintain compliance with Section 4.13.2 (c) above or where further new development is proposed or constructed.

4.13.8 Site Plan Control

The provisions for landscaping and screening shall not be deemed to limit the Corporation's authority for site plan control.

4.14 Licenses, Permits and Other By-laws

Nothing in this By-law shall exempt any person from complying with requirements of the Building By-law or any other By-law in force within the Village or from obtaining any permit, license, permission, authority or approval required by this or any other By-law of the Village of Casselman or by any other law in force from time to time.

4.15 Loading Requirements

For every building or structure hereafter erected for a commercial or industrial use, involving the frequent shipping, loading or unloading of persons, animals, wares, merchandise or other goods, there shall be provided and maintained loading facilities or spaces in accordance with the following requirements:

- (a) Each loading space shall have a minimum height (vertical) clearance of 4.5 metres (14.7 ft.) and shall be at least 3.0 metres (9.8 ft.) wide by 14.0 metres (45.9 ft.) long.
- (b) Except as may otherwise be set out in a site plan control agreement, loading spaces shall be located inside a building or structure, or on an open rear yard, or an interior side yard, on the same lot on which the main use is located, provided such a space shall be in an area whose distance from the lot line to the building or structure is not less than 9.0 metres (29.5 ft.) or 15.0 m (49.2 ft.) from the boundary of any Residential Zone and shall have unobstructed ingress and egress to and from a public street by means of a driveway, land or traffic aisle of a minimum width of 3.5 metres (11.5 ft.). Access to loading spaces shall not pass through a residential zone.
- (c) The number of required loading spaces provided shall be in accordance with the floor area of the building or structure as follows:

Schedule of Required Loading Spaces

(i) Commercial Uses:

<i>Floor Area</i>	<i>Minimum Required Loading Spaces</i>
less than 200 m ² (2,153 ft. ²)	none
200 m ² (2,153 ft. ²) to 1,000 m ² (10,764.3 ft. ²)	1

- (a) Within the Village of Casselman, no person shall erect or use in whole or in part any building or structure unless municipal sewer and municipal water are available and the appropriate arrangements have been made with the Corporation for service connections. This shall be deemed to include appropriate arrangements for utilities.
- (b) In areas where only a municipal water service is available, no building or structure may be used unless satisfactory arrangement have been made for the connection of the building or structure to the municipal water service.
- (c) In all other areas of the municipality, no person shall use in whole or in part any building or structure requiring water or sewage, unless a Certificate of Approval from the Ministry of Environment and Energy or its agent has first been obtained.

4.19 Non-Conforming Uses

- (a) **Continuance of Existing Uses**

Nothing in this By-law shall prevent the use of any land, building or structure for any purpose prohibited by the By-law if such land, building or structure was lawfully used for such purpose on the day of the passing of the By-law, so long as it continues to be used for that purpose. If a non-conforming building should be damaged by any cause beyond the owner's control, nothing in this By-law shall prevent such a building from being restored and strengthened to a safe condition, provided the height and bulk are not increased, provided that reconstruction or restoration is commenced within 12 months of the date on which the damage took place and provided the reconstruction is on the same foundation or location of the same foundation.

- (b) **Repair of Existing Buildings**

Nothing in this By-law shall prevent the strengthening to a safe condition of any building or structure or part of any building or structure which does not comply with the provisions of this By-law, provided such alteration or repair does not increase the height, size or volume or change the use of such building or structure.

- (c) **Less than Minimum Yard Requirements**

Where a building or structure which is a permitted use in the zone has been erected prior to the date of passing of this By-law on a lot having less than the minimum front, side or rear yard required by this By-law, the building or structure may be enlarged, reconstructed, repaired or renovated provided that:

- i) the enlargement, reconstruction, repair or renovation does not further reduce the front, side or rear yard having less than the minimum

required by this By-law except that buildings may be extended along an existing building line; and

ii) all other applicable provisions of this By-law are complied with.

(d) Prior Building Permits

Nothing in this By-law shall prevent the erection or use of a building or structure for which a building permit has been issued prior to the date of passing of the By-law, provided the erection of such building is commenced within 2 years of the date of passing of this By-law and such building or structure is completed within a reasonable time after the erection thereof is commenced or in compliance with the provisions as set out in the Building Code Act.

(e) Existing Undersized Lots

Where a lot having less than the minimum frontage or area required by this By-law, exists on the date of passing of the By-law or is increased in frontage or area but still does not meet the minimum frontage or area requirements of this By-law, such lot may be used for a purpose permitted in the zone in which it is located provided that all other applicable provisions in this By-law are met.

f) Less than Required Floor Area

Nothing in this By-law shall prevent an extension or addition being made to a permitted dwelling which existed at the time of passing of this By-law but which has a floor area less than that required by this By-law, provided such extension or addition does not contravene any other provisions of this By-law.

g) Change of Use

The use of any lot, building or structure which is not permitted in the zone in which it is located, shall not be changed except to a use which is listed as a permitted use in such zone or to a use which is authorized by the Committee of Adjustment pursuant to its powers under the Planning Act.

(h) Road Widening

Nothing in this By-law shall prevent the use of any land, building or structure or the erection of any building or structure on a lot which does not conform to the minimum lot frontage and/or lot area and/or front yard setback and in the case of a corner lot, the side yard setback, as a result of a road widening taken by the Corporation of the Village of Casselman, the United Counties of Prescott and Russell or the Ministry of Transportation of Ontario, provided all other requirements of this By-law are complied with.

4.20 Parking and Storage of Vehicles

- (a) When any new development is constructed or when any existing development is enlarged, or use changed, provision shall be made for off-street vehicular parking spaces in accordance with the standards of this section.
- (b) Where any alteration or enlargement of an existing building in any Commercial or Industrial Zone is no greater than 10% of the floor area of the building or structure existing on the effective date of this By-law, there shall be no additional parking spaces required. This clause shall not be deemed to permit multiple increments of 10% or less as a means to subvert the intent of this section of the By-law.
- (c) Except as provided herein, no vehicles shall be parked or stored in a Residential Zone unless the vehicle is located within a garage, carport, driveway, designated parking area or on a street as permitted by Municipal By-law.
- (d) No parking space in a Residential Zone shall be used for the outdoor parking or storage of a motor vehicle unless such vehicle is used in operations incidental to the residential use of the lot on which it is parked or stored and bears a motor vehicle license plate and sticker which is currently valid.
- (e) Recreational vehicles shall be permitted in a Residential Zone. Recreational vehicles exceeding 9.1 m (30 ft.) are permitted provided the parking space is located in an internal side yard or rear yard.
- (f) A commercial vehicle such as a tractor only (e.g. excluding a transport trailer) shall be permitted in a residential zone provided the parking space is located in an internal side yard or rear yard.
- (g) Each standard parking space shall have a minimum width of 2.6 metres (8.5 ft.) and a minimum length of 5.5 metres (18.0 ft.) and each barrier-free parking space shall have a minimum width of 3.0 metres (9.8 ft.) and a minimum length of 6.0 metres (19.7 ft.).
- (h) The parking requirements for a single lot or a building containing a number of uses shall be the sum total of the parking requirements for each of the component uses, except in the case of a shopping centre for which the standards cited specifically for shopping centres shall apply.
- (i) The parking space requirements shall not apply to any building in existence at the date of passing of this By-law so long as the gross floor area, as it existed at such date, is not increased and no change in use occurs. If an addition is made to the building or structure which increases the gross floor area, or a change in use occurs then parking spaces for the addition or area changed in use shall be provided.
- (j) Unless otherwise specifically provided elsewhere in this By-law, no driveway which provides ingress and egress to and from any lot or parking space shall pass through zones other than the one containing the

permitted use except where an easement or right-of-way is registered on title.

- (k) **Supplementary regulations for parking spaces for single detached, semi-detached, duplex and converted dwellings and townhouses are as follows:**

Supplementary Regulations:

- i) **The driveway and parking space shall be constructed of crushed stone, asphalt paving, concrete, paver stones or similar materials and shall be maintained and treated so as to reduce dust, scattering of stones and similar potentially undesirable effects on adjoining properties;**
 - ii) **No more than fifty percent (50%) of the area of any required front yard shall be used or constructed as a driveway or parking space;**
- (l) **Access:**
- (i) **Access to the required parking spaces and parking areas shall be provided by means of unobstructed driveways or passageways at least 3.0 m (9.8 ft.), but not more than 9.0 m (29.5 ft.) in width.**
 - (ii) **The manoeuvring aisles between parking spaces within a parking area shall have a minimum width of 6.0 m (19.7 ft.).**
 - (iii) **The maximum width of any combined ingress and egress driveway or any abutting driveways along a common lot line, measured along the street line, shall be 9.0 m (29.5 ft.).**
 - (iv) **The minimum distance between two separate driveways on one lot, measured along the street line, shall be 7.5 m (24.6 ft.) for all dwelling types except a townhouse dwelling where the distance may be reduced to 3.0 m (9.8 ft.). This provision shall not be deemed to prevent the construction of an adjoining driveway serving two (2) separate dwellings.**
 - (v) **The minimum distance between a driveway and an intersection of street lines, measured along the street line intersected by such driveway, shall be 7.5 m (24.6 ft.).**
 - (vi) **The minimum angle of intersection between a driveway and a street line shall be 60°.**
- (m) **Except where permitted elsewhere in this By-law, the required parking in a Residential Zone shall be provided on the same lot as the dwelling unit. In all other zones, parking shall be provided within 150 metres (492.1 ft.) of the building or lot it is intended to serve, subject to an agreement, deed or renewable lease which provides for same.**

- (n) The parking requirements as set out in Section 4.21 shall not apply within the General Commercial (GC) Zone for that area of the Municipality located between the South Nation River and St-Isidore Street.
- (o) Despite Section 4.21, if the calculation of the minimum parking space requirement results in a fraction, the minimum requirement shall be the next higher whole number.
- (p) Access to parking areas for commercial or industrial uses shall not pass through a Residential Zone.

4.21 Schedule for parking requirements

- (a) In any zone, the owner or occupant of any building or structure erected, enlarged or changed in use after the date of passing of this By-law shall provide off-street parking in accordance with the schedule for parking provisions.
- (b) Wherever barrier-free access to a building is required under the Building Code, one barrier-free parking space shall be provided for every 20 standard parking spaces or part thereof and shall be included in the total number of parking spaces required under the Schedule for Parking Requirements.

Schedule for Parking Requirements:

4.23 Parts of Buildings or Structures Permitted Above Height Level

The height regulations herein set forth shall not apply to any of the following:

- Air conditioning system
- Chimney
- Church spire or belfry
- Clock Tower
- Elevator or stairway enclosure
- Enclosed mechanical and electrical equipment
- Farm buildings and structures such as a barn, silo or windmill
- Flag pole
- Hydro electric transmission tower
- Ornamental dome or clock tower
- Receiving and transmitting antenna or telecommunications tower
- Receiving stations
- Satellite dish/receiver

- Skylight
- Solar panels
- Ventilating fan or skylight or ventilator
- Water tower or reservoir

4.24 Permitted Projections

The minimum permitted projections for buildings are set out as follows:

STRUCTURE	MAXIMUM PROJECTION INTO REQUIRED YARD
Chimney breasts, cornices, sills, bay windows, pilasters, eaves or gutters	0.6 metres (1.96 ft.) into any required front, rear or side yard
Canopies which are at least 2.13 metres (7 ft.) in vertical clearance above the established grade, with or without supporting posts	2 metres (6.5 ft.) into any required yard
Canopies for entrances to apartment buildings and commercial buildings	Despite any other provisions in this By-law, a canopy or portico over a major entrance to an apartment building or commercial building may project into the required yard a distance equal to one-half (1/2) the setback of the building from the street line
Window awnings	1.2 metres (3.9 ft.) into any required yard
Steps, ramps for use by handicapped, and walkways	No maximum into any required yard
Unenclosed porch, uncovered platform landing, patio or sun deck, balconies or steps	Maximum of 1.5 metres (4.9 ft.) into any side yard and 3.0 metres (9.8 ft.) into any required front or rear yard
Accessory building	As permitted by and as specified in this By-law

4.25 Prohibited Uses

Except as specifically permitted in this By-law, the following uses are prohibited:

- (a) The keeping or raising of any horse, bull, ox, sheep, goat, pig or other cattle, or any poultry, or any reptile, or any wild animal including any tamed or domesticated wild animal, in any residential zone or in any building or structure in any zone unless otherwise stated.
- (b) No use shall be permitted within the Village which from its nature or the materials used therein is, under the Public Health Act, or regulation thereunder, declared to be a noxious trade, business or manufacture.

- (c) Except as otherwise specifically permitted in this By-law, no land shall be used and no building or structure shall be erected, altered or used for any purpose that creates or is likely to become a nuisance or offensive, or both, to an adjacent property holder or to the general public.
- (d) The making or establishment of a pit or quarry is prohibited.

4.26 Railway Crossing

Where any road or street crosses a railway at the same grade, no building or structure shall hereafter be erected within the sight triangle established by measuring from the point of intersection of the centreline of the road and the railway right-of-way, 45 m (147.6 ft.) along the centreline of the road and 215 m (705.4 ft.) along the centreline of the railway right-of-way.

4.27 Sight Triangle

4.27.1 Within any area defined as a sight triangle, the following uses shall be prohibited:

- (a) a building, structure, or use which would obstruct the vision of drivers of motor vehicles;
- (b) a fence, tree, hedge, bush or other vegetation the top of which exceeds 1.0 m (3.28 ft.) in height above the elevation of the street.
- (c) any portion of a delivery space, loading space, driveway or parking space;
- (d) a berm or other ground surface which exceeds the elevation of the street by more than 0.5 m (1.64 ft.);
- (e) a sign, other than a pole sign, the body of which is not less than 4.0 m (13.1 ft.) above the elevation of the centerline of the street.

4.27.2 For the purposes of this By-law, the following sight distances shall apply:

- (a) ~~fifteen (15) metres (49.2 ft.) in all commercial and industrial zones;~~
That by-law 96-635 is further amended by changing Section 4.27.2(a) from 15 metres (49.2 ft) to "12 m (39.3 ft.)". (By-law 99-703)
- (b) six (6) metres (19.7 ft.) in all other zones;

4.28 Signs

Unless otherwise stated in this By-law, signs shall be permitted only in accordance with the Signs By-law(s) of the Corporation.

4.29 Streets and Parks

In any zone established by this By-law, public streets, walkways, bike paths and parks or outdoor public recreational facilities are permitted.

4.30 Temporary Buildings or Structures During Construction

Nothing in this By-law shall prevent the use of land or the use or erection of a temporary building or structure or a scaffold or other equipment essential to the construction in progress for which a building permit has been granted, but only until such time as the work has been finished or abandoned or such equipment is in the opinion of the Corporation no longer required.

In addition, temporary accommodation for a business or other use which is intended to occupy a building which is under construction with the work in progress on such building, may be temporarily permitted on the same lot in the form of a mobile, relocatable, portable or transportable building provided:

- (a) approval is obtained pursuant to the matters contained herein;
- (b) such temporary accommodation is removed from the lot immediately upon completion of construction, abandonment of construction or at such time as in the opinion of the Corporation it is no longer required.

4.31 Through Lots

Where a lot is a through lot, the requirements for front yards contained in this By-law shall apply to each yard abutting the street.

4.32 Truck, Bus and Coach Bodies

No truck, bus, coach or street car body, or structure of any kind other than a dwelling unit erected and used in accordance with this and all other by-laws of the Corporation shall be used for human habitation within the Village of Casselman whether or not the same is mounted on wheels.

4.33 Use by Public Authority or Public Utility

The provisions of this By-law shall not apply to the use of any land or to the erection or use of any utility installation for the purpose of public service by the Village of Casselman, the United Counties of Prescott and Russell and/or any public authority, any department of the Government of Ontario or Canada, including any Ontario Hydro facilities pursuant to the Planning Act, provided that where such land, building or structure is located in a Residential Zone or on a lot adjacent to a Residential Zone:

- (a) no goods, materials or equipment shall be stored in the open in any Residential Zone;
- (b) the lot coverage and setback regulations of the zone in which such land, building or above ground structure is located shall be complied with except electric power facilities or utilities (ie. gas, cable, telephone poles, towers, lines and similar elements);
- (c) any building or structure erected in a Residential Zone under the authority of this paragraph shall be designed and maintained in general harmony with the residential buildings;

- (d) parking and loading requirements as contained in this By-law shall be complied with.

4.34 Yard Requirements when Waterways are Involved

Where in this By-law a front, side or rear yard is required, and part of the area of the lot is usually covered by water or marsh, or is beyond the rim of a river bank or watercourse, or between the top and toe of a cliff or embankment having a slope of thirty degrees or more from the horizontal, then the required yard shall be measured from the nearest main wall of the main building or structure on the lot to the edge of said area covered by water or marsh, or to the rim of said river bank or water course, or to the top of the said cliff or embankment if such area is closer than the lot line, such measurement taken at 90° to the lot line or regulating feature.

Where any lot is adjacent to a waterway, any building or structure to be erected thereon shall be set back a minimum for 30 m (98.4 ft.) from the high water mark as described above. This provision shall not apply to marine facilities, to transmission facilities for gas, telephone, cable or hydro or to flood control structures.

4.35 Zoning for Housing Intensification

An existing single detached dwelling may be converted to increase the supply of housing accommodation provided the following provisions are met:

- (a) the minimum gross floor area shall be 232m² (2,500 ft.²);
- (b) the provisions of Section 4.18 (a) - Municipal Services/Utilities Required shall be met particularly with respect to there being adequate municipal sewer and water capacity being available;
- (c) the maximum number of occupants shall be 10 persons excluding operating staff;
- (d) the provisions of Section 1.11 of this By-law shall be met with respect to any required provincial and/or federal permits, licenses or approvals;
- (e) the requirements of the Ontario Building Code shall be met;
- (f) the provisions of Section 4.21 for parking shall be met.

Despite the provisions of this section, for the property described as part of Lots 11 and 12, Con. 6, RP-50R3168, Part 1 (civic address: 10 chemin Rivière Nation Nord), having a lot area of 0.8 ha (2 acres) more or less and a gross floor area of 554.5 m² (5,968.75 ft.²), the maximum number of occupants permitted shall be 20 persons excluding operating staff, and provided there is no reduction to the existing lot area or gross floor area.
